

SUPPLEMENTARY FIGURE

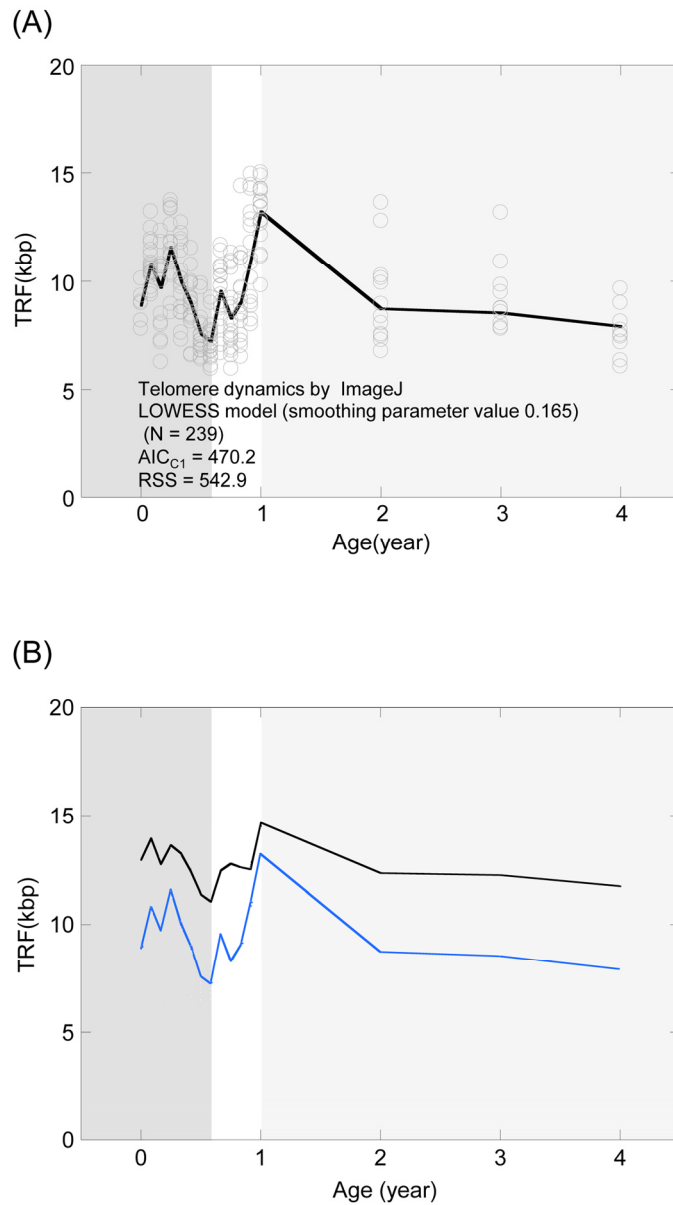

Figure S1. TRF length from embryo to extreme old age in the medaka. (A) Scatterplots of telomere dynamics obtained using ImageJ and the fitted regression model. (B) Comparison of the regression curve of telomere dynamics obtained using Telometric and ImageJ. Black curve, Telometric; Blue curve, ImageJ. G (dark gray shading), growth stage; Ado (clear), adolescent stage; Adu (light gray shading), adult stage.
